Lloyd's Register of Shipping. X

STATISTICAL SUMMARY

OF

VESSELS OF 100 TONS AND UPWARDS, .

TOTALLY LOST, CONDEMNED, &c.,

DURING THE YEAR

1919.

NOTE:—This Summary is based upon the quarterly returns of total losses, &c., which have been published by Lloyd's Register. It includes, however, vessels which had not been given up as total losses, or of the loss of which information had not been received, when the returns for the quarters in which they respectively occurred were compiled. On the other hand, a few vessels which, being definitely considered as total losses at the respective dates of compilation, were included in the quarterly returns, have since been floated, repaired, &c., and are accordingly now excluded from the statistics given herein. Particulars of all such additions to, and deductions from, the quarterly returns are given on pages 5 to 8.

A distinguishing feature of the Wreck Returns published by Lloyd's Register is that, except as stated in the footnotes to Table No. 1, they are compiled strictly according to the dates at which the casualties resulting in total loss actually *occurred*, and not according to the dates at which *reports* of casualties were *received*.

TABLE No. 1 :—Showing the number, net and gross tonnage and nationality of STEAM VESSELS totally lost, condemned, &c., during the year 1919, as reported up to the 31st August, 1920. (Vessels under 100 tons gross are not included in this return.)
